## EXPERIENCE

I have done computer application technology at school where we have mostly learned HTML. It helped me a lot as I now know the basics of creating a website.

I also did a computer course at Naspers Laps, and they mostly gave me job readiness skills to prepare me for any work place. Computer literacy was part of my course I did.

## SKILLS

- Html/Css
- Javascript
- Excel, Microsoft Word, ect...

## PROFESSIONAL GOALS AND OBJECTIVES

I want to expand my professional knowledge and training, improve my working performances and gain new experiences.

I want to advance my career in a way that helps me grow as a person and employee.
